

The Poliflor Vertical Green Systems: theoretical and practical course

The course, which lasts one day and a half, has the aim to offer the didactic instruments and the theatrical-practical information concerning the structural and botanic planning, the estimate, the installation and the maintenance of Poliflor Vertical Green Systems.

The participant companies will receive the Poliflor certificate, the Hilti fixing element certificate and their names will be reported in our website.

The courses will take place in Autumn with a minimum of 8 participants (maximum 15): the preregistration will close 15 days before the starting date. The calendar will be soon available.

Price: €540.00 + VAT (for the second participant of the same company the price is € 340.00 + VAT).

In the location of Ascoli and Bologna, in the afternoon of the second day, it will be possible to participate at the photovoltaic seminar about the Poliflor Green Roof Systems (at the additional price of € 160.00 + VAT per person)

The price includes didactic material and food.

The preregistration has to be done 15 days before the starting of the course by sending the [attached form](#)
